

Woodlot Management for Forest Owners 101

Saturday February 18, 2017 9am to Noon

Woodlot Management for Forest Owners 101 NEW!

February 18

Saturday | 9am to Noon

Queensbury Campus

This entry-level course is intended to introduce private forest owners to strategies for managing their woodlots for wildlife, timber, maple syrup, recreation and many other potential uses. During this class, participants will learn through hands-on silviculture lessons on campus forestland. Topics include: creating a forest management plan, forestry best practices, government grants and assistance, how to sell your timber and much more. Please dress for the weather and being outside.

Price: \$10

CRN: 20084
